

CODE MAINTENANCE COMMITTEE

THOUGHTFUL REVIEW FOR
LONG-TERM IMPROVEMENT.

Agenda for Code Maintenance Committee, 10/25/2026 Meeting

Location: North Tonawanda City Hall, 216 Payne Avenue. Conference Room 6.

Time: Noon to 1PM

Code Maintenance Committee

In Attendance:

1. Celebrate - 101 passed!
2. Livestock Discussion - Bees & Ducks
3. Potentially up next: [Chapter 26. Cable Television Advisory Board](#)
4. Waiting on the following follow up:
 - a. [Chapter 62. Nuisance](#) , still working on the right language in the right spot to make enforcement easier/more effective
 - b. [Chapter 8. Abandoned Vehicles](#) , the Mayor and the Chief of Police are working through this so that the car doesn't simply get impounded, but we still need to update the code because what listed doesn't happen so they are typing something up for us to review.
 - c. [Chapter A114. Grievance Procedure](#)

Mission Statement: The purpose of this committee is to review the City Code and identify outdated sections, old language, inconsistencies, and provisions that no longer match how the City operates today. Many parts of the code have not been thoroughly reviewed in decades, so the goal is to work through them thoughtfully and make recommendations where updates or clarification may be needed.

This committee's work is separate from the City's consultant-led Zoning Code Update project. While the Zoning Code Update focuses specifically on land use and development regulations, this committee will focus more broadly on the overall City Code, organization, accessibility, and general code maintenance.
